

A United States Constitution Article V Citizen Ballot

In support of Passing and Ratifying the following 28-word Democracy Amendment as the 28th Amendment to the United States Constitution:

**“We the People,
hereby empower the majority of American voters to approve all laws,
federal legislation, presidential executive orders and judicial decisions
that impact the majority of voters.”**

I, _____,
(Please Print First, Middle and Last Name)

am a registered voter in the United States of America, and I have carefully read and considered this Democracy Amendment to the U.S. Constitution, which will allow the USA to replace the secrecy and lobbyist (i.e., bribery)-based Republic, with a majority-rule Democracy that will empower the majority to make secrecy and bribery of elected officials illegal. Once the majority of voters are empowered, the partisan political gridlock will end -- as the new United States Citizens Congress rapidly ends the USA's dependence on oil and other highly-toxic fossil and nuclear fuels and chemicals, that are making the Earth uninhabitable -- by shifting to a wind and other solar-sourced Hydrogen & Cannabis Age and Economy that Henry Ford was advocating -- and that the USA was founded upon -- which is completely non-toxic and renewable. As such, as per Article V of the United States Constitution, I hereby vote to both Pass & Ratify this Democracy Amendment.

(Signature) _____
(Date)

I am an American citizen, registered to vote in the State of _____

I reside at _____
(Street Address) *(City)* *(Zip)*

Telephone _____ Email address _____

Once this Article V Citizen's Voter Ballot has been completed, it must then be mailed to the Elections Division of the respective Secretary of State, where the Ballot can then be verified, counted and archived. And as per Article V of the U.S. Constitution, when a majority of voters from 38-States send in their ballots, the Democracy Amendment will be ratified.

The United States Article V Citizens Ballot

Supporting the Passage & Ratification of the proposed Democracy Amendment
to the United States Constitution

Most Americans believe the USA is already a Democracy, because they hear this Orwellian deception daily from elected officials and all of the corporate news networks. However, the USA is and always has been a lobbyist-based Republic, where all major decisions are made by a tiny number of elected “representatives” who are bribed in secret by armies of lobbyists who write the thousand-plus page bills that virtually no one reads. One does not need a law degree to understand the difference between an Oligarchic Republic and a majority-rule Democracy, only a dictionary. This is why some of the most despicable governments in the world are Republics, including the governments of North Korea, Syria, Iran and Iraq. And few in the U.S. are aware of the only country that is a real Constitutional Democracy that was formalized in the year 1291, in a diverse and remarkable country with four official languages, which has never been involved in a war or “mob rule” for over 168 years, and that country is *Switzerland*.

The U.S. Republic has proven to be catastrophically dysfunctional for the American people, and all life on the only planet in the Universe that sustains life, because it is a government of, by and for the wealthiest individuals and multinational oil, chemical, pharmaceutical and financial corporations, whose lobbyists have allowed them to make vast fortunes by legally mass-producing trillions of gallons of the most toxic chemicals and radiological poisons known. These poisons are now so “ubiquitous” on the Earth that they arrive in the wind and rain, which is why every man, woman and child has been contaminated, including the unborn, who now soak in a witches brew of poisons from the point of conception. This is causing epidemics of cancer, Autism and Alzheimer’s, and even the animals in the Arctic have not escaped this contamination in their blood because of an immutable law in physics called “diffusion,” which occurs every time cream is poured into coffee. It is why “We the People” must **Take Action Now**.

Fortunately, Article V of the U.S. Constitution empowers the majority of citizens (i.e. registered voters) to bypass the Congress and State Legislatures in order to pass and ratify Constitutional amendments, in what are called State Constitutional Conventions. And given the 28-word citizen-sponsored Democracy Amendment has already been written and proposed by Harry Braun, this 28th Amendment now only needs be ratified by the majority of voters in 38 States, which will then transfer political power from the lobbyists, political parties and elected officials they bribe, to the majority of registered voters.

The Trigger Mechanism is the Article V Citizen Ballot

Given such a time-sensitive State of Emergency now exists for our country, and our planet, a majority of American voters must be made aware of their most important Constitutional power to ratify this 28th Democracy Amendment with the Article V Citizen Ballot that can be downloaded as a verifiable paper ballot (unlike the votes in past U.S. elections) from the DemocracyAmendmentUSA.us website. Once the majority of citizens in three-fourths of the States (i.e., 38 States) mail their signed paper ballots to their respective Secretary of State, where they can be verified, counted and archived, the Democracy Amendment will become law. The U.S. Citizens Congress of registered voters will then be in charge -- a “Universal Mind” of over 60 million citizens -- at which point the majority will have finished the American Revolution for Democracy that formally began in 1776. The majority will then be “deciders” rather than “observers,” who can then shift from the unsustainable and highly-toxic Oil Economy to a real Democracy and Solar Hydrogen & Cannabis Economy that is outlined on the PhoenixProjectFoundation.US website. A technological Utopia or an ecological Oblivion lies in the balance, so please **Take Action Now**.
